

Down to Earth Construction

Job Description

Job title: Site Labourer	Hours per week:	Salary: £18,800 per annum
Responsible to: Site Manager	40	plus pension
Contract duration: 9 Months (mid September 20 to June 21)		
Working hours and location. 08:00 -16:30 Pennard, Swansea SA3 2DR		
<p>Be part of the change - join a team changing the construction industry for good!</p> <p>Down to Earth is trailblazing a new way of building using natural and sustainable materials. We're creating the next generation of houses which tackle social inequality and climate change through the design and construction process.</p> <p>We are looking for people who see we need to do things differently and understand we can meet current housing needs and not compromise the future of our children or the future of our planet.</p> <p>Down to Earth require a Site Labourer to support the Site Manager in implementing the health and safety and traffic management plans for our construction sites and ensure that the site is kept to the high standards expected. They will support the construction teams with resource and tool management, site cleanliness and waste management. Also, this person will support the Construction Administrator with data collection for the project; In particular waste management.</p> <p>Additional training</p> <p>We are prepared to provide additional training for the right applicant to supplement their existing skill set, if required.</p> <p>Contract duration: This is a 9 month contract with a 4 week probation period, however, we are confident this approach will result in a much longer career opportunity at Down to Earth as our social enterprise continues to grow and we scale this transformative approach across the UK.</p> <p>Working hours and location: Working hours will be 8.00am to 4.30pm, Monday to Friday, though this may need to be flexible based on the current build demands. The current build is based at Pennard, Swansea and due to relatively remote location you'll need to have a driving licence and have access to your own vehicle.</p> <p>Job Description:</p> <ul style="list-style-type: none"> • Comply with responsibilities as laid down in the Health, Safety & Environment Policy and as explained in Site Health and Safety rules/procedures • Implement and maintain the site layout plans and keep on top of temporary works site safety. • Support the construction staff with deliveries and traffic management. • Operate and care for construction equipment and machines. • Help equipment operators, carpenters, and other skilled labor when necessary. • Prep construction sites by cleaning obstacles and hazards. • Load or unload construction materials. • Put together and take apart temporary structures, such as scaffolding. • Follow instructions from supervisors. • Assist craft workers. • Perform site clean-up. 		

Down to Earth is an Equal Opportunities Employer.
